

“What Type of Investor are You?” Questionnaire

Instructions: Read each question and check the box in the right-hand column which best reflects your preference. Total the numbers checked for each section. Complete the score at the end of the questionnaire to determine the most appropriate Investment Objective for you.

- Helps you, the customer, identify your Investment Objective by answering questions on Risk Tolerance and Time Horizon.
- Helps identify the Investment Allocation mix suitable for your objective.
- The questionnaire score will be used to identify a corresponding Risk Tolerance in the next chart. You may either use the questionnaire or select a Risk Tolerance. All owners must select an Investment Objective that is consistent with their Risk Tolerance or questionnaire score.

Section 1	
1. How much investment risk are you willing to take in pursuit of greater returns?	
a. I want little risk with this investment and am willing to accept lower but more stable average returns as a result.	1
b. I am willing to take some but not much risk with this investment because I am concerned about significant market fluctuations.	2
c. I am willing to take a moderate amount of risk with this investment because I understand the relationship between investment risk and return.	3
d. I am willing to take a greater amount of risk with this investment because I accept that to achieve higher returns I may have to also risk significant market fluctuations.	4
2. Which of the following best describes how you would like this investment to perform during your planned holding period?	
a. Capital preservation with little volatility	1
b. Modest return while experiencing lower volatility	2
c. Average return and volatility	3
